Winter - Spring 2019

Dear CW Members and Supporters!!

What times we live in!

As we watch our federal government dismantle protections for the poor and give undue wealth to the rich, millions more of us are moved into action, agitation and protest against the current administration.

We also revel in the magnificent success of having more women elected to public office than ever before.

There is hope!

May spring be a delight with light and joy-complimenting our shared movement toward justice for all.

In Loving Memory, Eva Kubik

(Eva is on left with Linda Springer)

We are sorry to report that we have some sad news. Our friend Eva Kubik died unexpectedly in her sleep on December 18th.

Although Eva was not a member of the working triad, she was close friends with Lois Holden, also a long time Cub member and our liaison to Community Works. They were both retired social workers.

Lois herself passed away approximately 20 yrs. ago. Eva volunteered to replace her friend as Cubs liaison to Community Works, for which we are very grateful.

List of Workplace Partners

Thank you to our workplace partners for operating annual campaigns!

Workplaces who host campaigns range widely from universities, business, governments, for-profits and non-profits.

Employees enjoy having a choice to support small local, self directed, social justice organizations.

List of CW Members

CW members are 501(c)3 non-profit organizations each fully qualified for your tax deductible gift.

We offer one stop shopping for social justice!! By giving once to CW, you are supporting all of our members.

Our members conduct everyday life saving measures to support and empower vulnerable people in the face of oppression.

Your gift helps real people in real neighborhoods, to connect better, be safer

Introducing the Greater Four Corners Action Coalition

Environmental Justice is a key focus of the Greater Four Corners Action Coalition

For 28 years, the Greater Four Corners Action Coalition, (GFCAC), has been advocating to improve the quality of life and empower the residents of two of Boston's poorest neighborhoods. Unfortunately, the recent economic boom that has helped Boston to become one of America's fastest-growing cities has left neighborhoods such as Dorchester and Mattapan behind. Organizations like GFCAC work very hard to see that residents of these neighborhoods get a fairer shake.

Choosing Environmental Justice

April 22 2019

Join us for events this year

The CW Board of Directors has chosen to focus its coming year on our Climate Crisis.

Climate Change effects everyone equally, but the remedies impact people less than equally.

Evidence ranges from how dumps are placed in low income areas, to the state implementing flood remedies in areas of only commercial value and then to allow gas leaks to go unrepaired. CW members will be sharing stories of powerful action for ensuring a clean and safe environment for all of us.
